HANAPBUHAY

PARTNERSHIPS INFORMATION SYSTEM

Problem?

Need to standardize and streamline the employment facilitation process

Solution!

An online information system that collects and matches data from both the demand and supply side

ERO / PC

FIELD PDO

ERO

PC

Laptop updates:

1st batch: 651 brand new laptops for existing 2015 PDOs – Procurement stage

We hear you

2nd batch: 1000+ second hand laptops for all PDOs - 2016

HANAPBUHAY is one of the first information systems developed by SLP

Focused on User Experience

Fast loading

Easy Encoding

Simple Interface

Practical Data

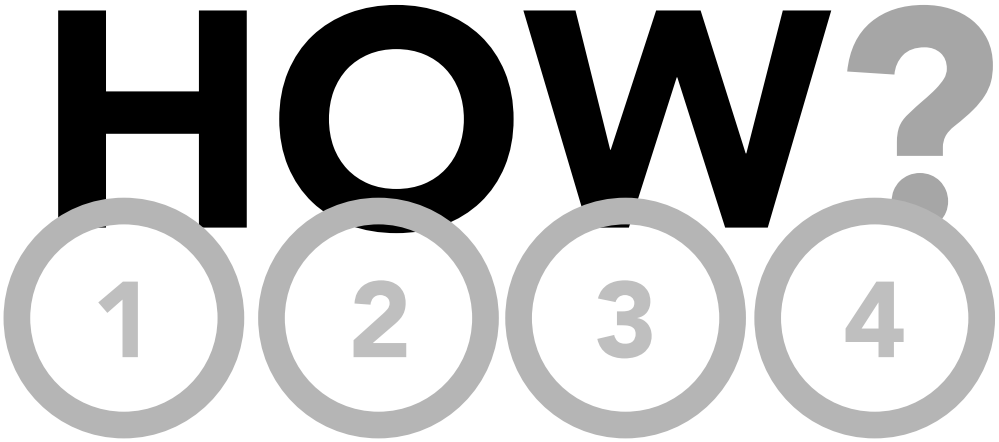
Work in Progress

We need our **EF champions**:
ERO and **PC**!

Things to improve:

- Add feature to add multiple job locations / number of openings
- Add feature to edit partners, jobs, and participants
- Add more data visualization / reports
- Add partner feedback mechanism
- Educational Attainment
- Address (Brgy)
- Skills / ceritification dropdown -vianca
- Checklist for partners -vianca
- Syncing with SLPIS

- More..



HOW?
1
2
3
4

1 2 3 4

Field PDO encodes employable program participant's skills and profile

AND

ERO / PC registers partners and encodes job openings and requirements

System Based

1 2 3 4

ERO/PC reviews system to plan and match jobs with program participants

System Based

1 2 **3** 4

Normal Business Process.

(meet with partners, refer participants, PEAF, ST, etc..)

Business as Usual

1 2 3 **4**

After program participants are hired:
ERO/PC updates job postings to indicate hired participants

System Based

1 2 3 4

ERO/PC reviews system to plan and match jobs with program participants

System Based

Hands on!
